Trains Nos. 2 and 3 on the West Virginia Central Railway will on Monday begin carrying a mail car, for local mails, the service now being confined to trains Nos. 1 and 4.

The South Penn Oil Co. has a derrick erected on the farm of Mr. John Lyden, on the waters of Fink, near the Doddridge county line, preparing to commencing boring for oil.

A negro excursionist was killed just below Harper's Ferry last week. He had his head out of the car window, and was leaning out over the platform, when his head struck a post to a cattle pen, crushing his skull.

The fire at the Ensign car works at Huntington Wednesday was a little more damaging than was first reported. The roof of the boiler house was badly burned, so as it will cost a considerable sum to replace it.

The Clarksburg News says: "Thank goodness we have no aristocrats to whom we are obliged to refer as 'His Grace' or 'His Lordship.' The only exception is in the case of Attorney Clifford, who has a right to be referred to as 'His Whiskers.'"

Junius B. Rounie, a leading educator of Harrison county, was thrown from his horse while racing near Johnstown on Saturday and seriously hurt. His recovery is a matter of grave doubt, as he was in a semi-paralyzed condition when last heard from.

The Weston Democrat makes the following statement and admission: Mr. John E. Bailey, of Freeman's creek, wintered twenty-one sheep. From them he sold lambs which netted him \$85.00. He kept five lambs, and received \$35.00 for his wool. This looks very much like sheep industry is profitable.

The Baltimore & Ohio Railroad Company has issued an order notifying its employees between Brunswick and Martinsburg that the work train which runs to and fro between the two places daily, bringing them to work and taking them home, will soon be discontinued, and that they must either rent or buy a house at Brunswick as soon as possible.

Mr. J. L. Burns, of Charleston, W. Va., and Mr. John H. Crawford, of Greenbrier, passed through Union last Monday with 221 stock ewes bought from Messrs. Chris. and Allen Broyles, of Red Sulphur and Springdale districts, this county. These were very fine sheep, and were bought for Mr. Burns' stock farm in Jefferson county.—*Mohr's Watchman.*

At Clarksburg last Monday Martha Dennis, of Terre Haute, Indiana, ascended about 350 feet in a balloon. She came down in a parachute. For the first 100 feet after leaving the balloon the parachute failed to work. After that the woman came down easily, but caught in the top of a high tree, half a mile from the fair ground, and was badly bruised.

Mr. N. Hayden, of Ritchie county, and Miss Rosa, the daughter of J. W. Smith, of Arnolds creek, were united in marriage while seated in their buggy on the pike near F. J. Ruley's last Sunday morning. Rev. N. E. Duckworth officiating. For sons-in-law Mr. Smith perhaps carries off the prize, as this is the eighth one. He has also two sons married.—*West Union Record.*

Mr. George Mish, living near Darkeville, Berkeley county, raised this season on three and a half acres of land 625 bushels of merchantable potatoes, on one-sixteenth of an acre forty bushels of large onions, and on another piece of ground of the same size twenty bushels of onion sets. Mr. Mish has realized that it pays to grow something else beside corn and wheat.

Gildas, the famous stallion belonging to General Goff, died suddenly at Deason's stables, in Clarksburg, Monday evening at 7 o'clock. Gildas had been entered in the sweepstakes to take place here on Tuesday, and it was at first thought some one had attempted to doctor him with a view to making him unfit to start in the race. A post mortem examination however developed the fact that he died from congestion of the lungs.

On Monday, the postoffice at Pickaway, Monroe county, was robbed of a registered letter said to contain \$3.70. The letter was sent from Monitor to Cashmere in this county. There was quite a crowd in the postoffice at the time. Suspicion rested upon James Sloaner, of Sinks Grove, and he was duly arrested and gave bond for his appearance before Squire Hedrick to-day, (Thursday) at 2 o'clock p. m. John L. Rowan, Esq., of Union, was retained as counsel for Sloaner.

A. T. Cawthon, of Newark, our popular drummer, brought us a cabbage head Wednesday which weighed twenty pounds, and measured three feet and eight inches in circumference. Who can beat that? Mr. Cawthon says the cabbage was raised in a republican garden by a democratic woman, and that its immense size is caused by the McKinley law. Wm. H. Evans, of Windy, this county, brought us an apple Wednesday that measured seventeen and one-half inches in circumference, and weighed one and one-fourth pounds. It is a daisy.—*Elizabeth Times.*

Mr. George M. Whitescarver left on Thursday for Martin's Bottom, the location of the proposed new town in Pocahontas to be called Marlinton. Mr. Whitescarver is one of the ten gentlemen who compose the syndicate which purchased the 5,000 acres of land on which the new town is to be built, and has been chosen manager. He will superintend the laying out of the town, and the erection of saw mills to cut up into lumber the great quantity of timber that covers the syndicate's large holding. The projectors of the new town are anticipating a big future for it. The Camden road is now heading for that point and will make it a terminus. There is to be a branch of the C. & O. and both roads are under promise to build and maintain shops there. These and various other contemplated enterprises are expected to attract quite a population and make it one of the largest interior towns of the State.—*Grafton Sentinel.*

On the opposite side of the Kanawha near the upper ferry three fakirs opened up a shell game this morning and had it in full operation for several hours, right under the nose of a justice of the peace who runs the ferry. Several farmers, it is said, were roped in for various amounts by the old and deceptive trick; and the last sucker to bite was a young fellow by the name of Allenman, from Steele district. He came along with a team and thought he would take a hand in the game. The shells were moved about, and just for fun, in order to allow him an opportunity of seeing how easily it could be done, he picked up the right shell each time. Then they shuffled the shells around again, and he was so confident he could pick out the shell with the little ball under it that he offered to bet \$3 on it, and took out his roll, containing about \$30, to make the bet. As soon as the roll was flashed at them the fakirs grabbed it, closed up shop without further ado and decamped in a hurry, leaving their victim gasping for breath at the suddenness of the thing. He

raised a big uproar, but it availed him nothing. One of the fakirs looked at him.—*Parkersburg Sentinel.*

The breaking of an axle caused quite a wreck near Toll Gate last Saturday morning. Seven or eight cars were thrown from the track and smashed all to pieces and their contents wasted. The track was torn up for some distance, but luckily no one was hurt in the least. Trains were delayed nearly all day on account of it.

Hyatt Donaldson, of Davis, Tucker county, is in trouble. Last week he broke open a trunk at Carico's camp and took from it \$50 in money, then started with Miss Shuler to Maryland, where they were to be married. They did not get there, however. Officer Leith, who is always on duty, went down to Thomas with the would be happy couple, and when they arrested young Donaldson and brought him back to Davis. Donaldson confessed to the charge against him, and was taken to the St. George jail on Friday to await the action of the grand jury.

On Thursday night a band of five or six masked men, calling themselves red men, broke in on the silent slumbers of the Kickey family who live on what is known as Stave run, Ritchie county. The men entered the house with a war whoop, and dragged Kickey from his bed. The villains were here set upon by old Mrs. Kickey, armed with an ax. She was getting in some good work when one of the men let drive at her with a revolver, the ball striking her in the wrist. As the saying goes, her "Irish was up," and she still cut and slashed at the men with tiger-like ferocity, until they became alarmed for their safety and beat a hasty retreat. Several parties have been arrested on suspicion and had a hearing before Squire Clammer, but for lack of evidence they were released.

Shortly before two o'clock this morning the sharp and rapid clanging of the fire bell and the hideous tooting of the engines in the Baltimore and Ohio yards disturbed the slumbers of nearly every citizen in Martinsburg. The alarm was occasioned by the burning of a frame boiler house connected with Parks' elevator on Commerce street, and the flames had gained considerable headway before they were discovered. Although the fire department turned out quite promptly and rendered some valuable service toward keeping the flames from connecting with the adjoining buildings, the small building was completely destroyed. The structure was 16x22 feet in size with an iron roof, and protected the boiler from the weather. Fortunately the engine was not in the same building, otherwise the loss would have been heavier. Mr. Parks says that his loss will not exceed \$200, which will be total, as there was no insurance. Mr. Parks had all his other buildings fully covered but did not think that it was necessary to insure this small building as it was forty feet from the main elevator. The fire will interfere with Mr. Parks' business for two days at a very rushing time.—*Martinsburg World.*

"What is that terrible noise?" asked one Russian nobleman of another. "It sounds as if some one was riveting a boiler." "Yes," was the reply; "the czar's valet is getting him ready for bed."

Pronounced Hopeless, Yet Saved.

From a letter written by Mrs. Ada E. Hurd, of Groton, S. D., we quote: "Was taken with a bad cold which settled on my lungs, cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles; it has cured me, and thank God I am now a well and hearty woman." Trial bottles free at Logan Drug Co.'s Drug Store; regular size, 50 cents and \$1.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, Sept. 6.—Money on call easy, with no loans, closed offered at 3 per cent. Prime mercantile paper 6 1/2 per cent. Sterling exchange quiet and steady at \$1 32 1/2. Sales were \$197,747 shares.

The stock market to-day showed on the whole a moderate volume of business, and while the playing a strong tone during most of the time, failed to secure material advances in the stocks, which have of late been most prominent in the dealings. Other stocks, however, were taken up by the interest identified with them and advanced materially. In these gains the Vanderbilts and especially the low priced ones, were the feature. The bears at the outset endeavored to make more capital out of the frosts reported last night, but the temper of the room was decidedly bullish still, and aided by liberal purchases for both foreign and domestic account the demonstration in the early dealings was fruitless, except that the strong stocks of yesterday were retired fractionally.

The attack in the early trading caused fractional declines, but the recovery came soon, and the advance from that time was not interrupted. All the active stocks were traded in within narrow limits, and the underbills and a few others showed the improvement. The market closed active and strong with most of the list at the highest prices of the day. The final changes were generally fractional gains, but Chesapeake and Ohio, the Western preferred 5 1/2, the first preferred 5 1/2, Nickel Plate road 1 1/2, the first preferred 2 1/2, the second preferred 2 1/2, New York Central 1 3/4, and Delaware Hudson 1 1/2 per cent.

Government bonds have been dull and steady. State bonds have been dull and steady. Railroad bonds more active.

Breadstuffs and Provisions.

CHICAGO, Sept. 6.—Business in the wheat pit to-day was light, and the market dull and featureless. There was little news of any kind, and none that was influential. In the futures of wheat the feeling was weak. The New York market was easier, and domestic markets showed a tendency to weakness.

Corn was easy. Oats were steady, with fluctuations confined to a small range. Provisions active and higher.

Flour steady and unchanged.
